A decorative border in a reddish-brown color frames the page. It features a repeating pattern of stylized, interlocking floral or scrollwork motifs, creating a rectangular frame around the text.

Foreword

Another year has passed with its work and play, its joys and sorrows, its defeats and victories. No human power can turn back the hand of time; we can not in reality live again the years that are past. Yet one can, and often will in the future, recall these days to memory. Knowing this, we have tried in this book to give some little thought or picture of every phase of our school life, so that it may, as you journey on life's way, aid you in recalling the pleasures of your high school days.

If we, the staff, have succeeded even to the least extent in this our aim we shall feel amply rewarded for our efforts.

THE EDITOR.

Dedication

To MR. SAMUEL THOMPSON, our principal,
who has been a never-failing source of inspira-
tion to us throughout our High School days, we

THE FACULTY

In number they are seventeen,
(But after all they're not so mean)
This awful faculty of ours,
Who gives us thorns—but never flowers.

Of the girls, two leave in June
To go off on their honeymoon;
For Frances Howle and Myrtle Bell
Are to be married—so they tell.

Our mid-Victorian teachers bar
Youth's dancing, cards, and motor-car;
Misses McComb, Dixon, and Aiken
Our wholesome fun are always rakin'!

Miss Thurman is perhaps the sweetest;
Miss Jones we know to be the neatest.
Triangles, squares, hypotenuse,
Geometry—hard as the deuce!

Two teachers are like college flappers,
You trust to me they are no nappers!
They are Miss Duncan and Miss Moore,
And Nancy Bagwell is no bore.

The looks Miss Abernethy can give
Make you feel you can not live.
From Miss Smith we hear Chicago
And "you must make up your zero."

The men are Ormond, Walling, Cottrell, Gwyn;
The way they flirt, it is a sin.
The man who signs his name S. T.
Controls the entire faculty.

Now, all of this is just a jest;
Our faculty is of the best.
To them we owe our cultured wit,
For they have taught us quite a bit.

So here's to you, dear faculty,
May you successful always be.
May your students not be like us,
The class who made you fuss and fuss!

Vice-President Freshman Class; President Junior Class; Debating Team (3, 4); Hi-Y Club (3); President (4); Business Manager of the LOG (4); Glee Club (4); Literary Societies (3, 4).

And the thoughts of youth are long, long thoughts."*

Football Squad (3); Varsity (4); Basketball Squad (4); Junior Class Secretary; Hi-Y Club (3, 4); Literary Societies (3, 4).

It's EDNA this time and not Ruth. She is always cheerful and full of fun. She and Ruth are the only twins in the Senior class.

The HICKORY LOG

THELMA CLINE WILLIAMS

"It is easier to be critical than to be correct."

Basketball Squad (3); Literary Societies (3, 4); Commercial Club (4); Glee Club (4).

HISTORY

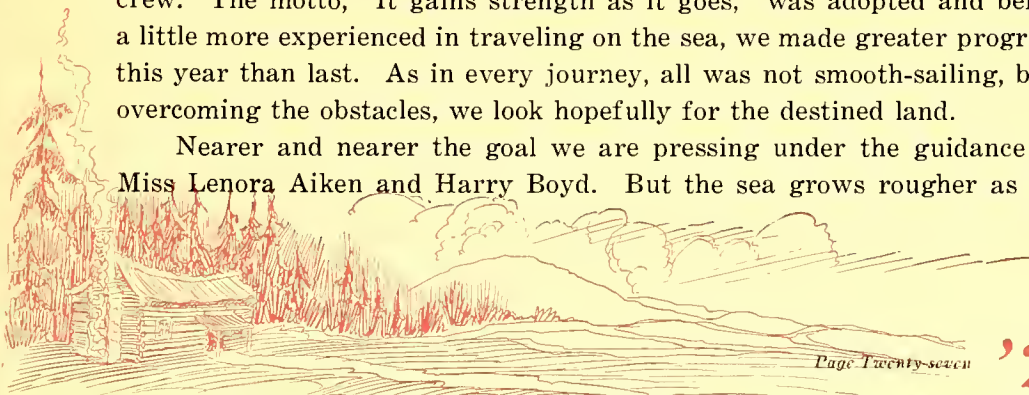

FOUR years ago in early September the Ship '23, having collected its crew from the North and South Schools, set sail for the Temple of Knowledge in a distant land.

The captain of the ship was Miss Beard and the guide, Kathleen Espey. At first the sea was calm and we, the crew, which was the largest in the ship's history, contemplated a pleasant journey; but very soon a storm, Examinations, arose. This was unlike any we had ever encountered before and terrified us greatly. Very soon afterwards we were warned of the approach of more such storms and, as we advanced, opened our books to find the characters of these in order to be able to escape the fright (of failing) that some experienced in the former.

The time was not all spent in studying two books, Latin and Algebra, which were often open before each one; but there were organizations, Literary Society and Hi-Y Club, and athletics to which part of the time was given. Scarcely before realizing that the storms had passed and that one-fourth of our journey was over, the ship had disembarked for a period of three months.

We set sail again but with new leaders, Miss Aileen Aiken and Elvina Hart. A few are left on the shore and some new ones are added to the crew. The motto, "It gains strength as it goes," was adopted and being a little more experienced in traveling on the sea, we made greater progress this year than last. As in every journey, all was not smooth-sailing, but, overcoming the obstacles, we look hopefully for the destined land.

Nearer and nearer the goal we are pressing under the guidance of Miss Lenora Aiken and Harry Boyd. But the sea grows rougher as we

The HICKORY LOG

proceed this year and the ship strikes the rock, Geometry. Soon this is removed.

The members, girls and boys, take an active part in the clubs of the school, and make fine records in athletics. After being tossed about on the deep, the ship enters a harbor and the end of this journey is celebrated by a feast, the Junior-Senior banquet.

There were sixty-eight on board on the last journey. This year has been the happiest and most successful of all. We were guided by Mr. Ormond and Conrad Crouch, to whom we are deeply indebted for making it thus. Wonderful are the records made this year in all activities; for we had our sails properly set and possessed a greater determination than ever before. Finally, the top of the temple comes in view and then the land is reached. Having been carefully scrutinized, one by one we leave the ship and receive the passports (diplomas) to the Temple.

Now the ship stands moored, awaiting the arrival of others and to carry them on the same journey as it has us, the class of 1927.

A VISION OF 1937

They had told me that I must prophesy,
But I knew not what to do;
For I was not born a prophet,
Any more than one of you;
I had spent the day in study
And in thinking hard and deep.
So I now, all worn and weary,
Lay me down and fell asleep.

I had lain there but a moment
In that slumber, calm and sweet,
When I rose and saw before me
Pandora, kneeling at my feet.
There was a magic chest in her hand,
And she held out its key of brass;
When I asked her what was in it,
She said, "The future of your class."

I quickly opened up the lid,
And as I looked within,
A cloud of silver smoke came forth—
A vision of schoolmate and friend.
The first was a laboratory,
And in it—John Hawn and Max;
They were tired of taking other folks' word
And resolved to hunt for the facts.

I saw a far-off country
With heathens of every land;
Louise Seaboch and Margaret
Were lending a helping hand.
Gertrude, Prema, and Daisy
Were trying to teach school;
Their chief motto, as ever, was—
"Never be a fool!"

The HICKORY LOG

The twins, Ruth and Edna
Were still making sweets at night;
They were selling at a great profit
Their famous "Turkish Delight."
Kathryn Regan, our star French pupil,
Was teaching a class of the same;
Her only request and wish being:
"Make ninety-eight your aim."

The next vision brought surprises;
Cecile was dancing on the stage;
Catherine Jones was an opera singer;
Joe, a preacher, quite the rage;
Alton, a sailor; Conrad, an author;
Nellie, a nurse, prim and neat;
Harry and Mike were lawyers
With intelligence that couldn't be beat.

Bill Hanna had become a millionaire,
And possessed an invention fine,
That brought everything he wanted
Without having strained his mind.
Two girls had acquired a fortune—
Bill Ledbetter and Jessie Long—
They were still taking life easy
For nothing ever went wrong.

Edna Rowe and Elizabeth Icard
Were candidates in a beauty contest
They had already gained world fame,
And were far ahead of the rest.
Thelma Bowman, Evelyn, and Helen,
On account of their artistic taste,
Had become interior decorators
With their success on harmony based.

Keith Bowman was a librarian;
Dennis Hawn, a skilled electrician;
Nell Wilkinson, a parish worker;
Nell Hagaman, a widely-known musician.
Caroll Abee was a history researcher,
Carl Raby and Ernest Starnes, too;
They had traveled to every country
And examined each library through.

Kathryn Lyerly and Adelaide Shuford
The English Channel had just swum;
Since they broke all previous records,
They, to the Hall of Fame had come.
James Hart and Morris Cohen
Had bought out Henry Ford;
They were showing folks that these cars
'Could be made of tin and a board.'

The HICKORY LOG

In an art shop of a large city
Marjorie Warlick leads
All other people in selling
Hand-made Indian beads.
Hazel Whitener and Zelma Yost
Owned a beauty parlor chic;
They were especially skilled
In bringing bloom to the cheek.

One vision showed a football game;
The world's best teams were playing;
Two of their men were Jake and Bruce.
Everyone was proudly saying,
"These gallant boys came in
With only three minutes to play.
They got to work and stirred things up,
And they have saved the day!"

Winifred, Ferol, and Annie,
Because they liked good things to eat,
Had built a trim little tea-house,
And were keeping things pretty and neat.
Georgia Isenhour and Kathryn Eckard
Passed the time away
By flirting with every boy
That would around them stay.

Louise Abernethy, Dorothy, and Roberta
On the Follies danced their way;
They were so cute and clever
Their success could not delay.
Louise Carpenter and Mary Hilda
Were operators addressed—"Hello,"
They certainly made good ones
And were never known to be slow.

The next vision showed the scene
With Macbeth hailing hags remote;
'Twas not Barrymore, but John Shuford
Who had become an actor of note.
Edgar Bogle and Edwin Barger
Operated a farm and dairy.
Robert Russell was a merchant,
Prosperous?—Yes, very.

Elizabeth Hardin and Nancy were florists.
Their flowers were sent far and near;
They were praised for their delicate beauty,
And were sold throughout the year.
James Aderholt was living in Switzerland,
And owned a flock of Swiss goats.
He had almost become a millionaire
In selling their valuable coats.

The HICKORY LOG

Frank Thompson possessed some fine horses,
And was training them for a race.
He had grown a little stouter
But looked the same in his face.
Blanche Miller and Thelma Williams
Were stenographers of the court.
They were capable and accurate,
And called the work great sport.

In a gym, I saw Mary Newton
Who had become a director.
Unmarried was she and assured me
She could always be her protector.
At a studio in Hollywood,
Who should be there, but Bill Hall.
He was well known in his stardom
And was admired by all.

Margie Barringer and Louise Bolick
Were dramatic directors great.
They were then presenting a pageant
Of the history of our state.
Bye and bye I saw with surprise
Elizabeth Moore and Louise Odum—not alone,
There were little children everywhere—
They were keeping an orphans' home.

And then from out of my slumber,
I opened my drowsy eyes;
I had slept long and soundly.
Just judge of my surprise
As I found myself in a cottage
I had lived in long ago,
Ere I started out that morning
On that curious quest to go.

So you see, my dear classmates,
That 'twas nothing but a dream
I've been telling, how'er natural
And real it to you must seem.
But in this old world of wonders,
Dreams have often-times come true.
So, who knows but this, my vision,
May be realized by you.

—MARY KISER.

MODERN PLUS

JAKE WHITE set the controls on the magnetic hammock at just two feet, put on his patented Westlock steel bathrobe, and turned on the juice. A sudden movement, and he was floating leisurely twenty-four inches above the ground, suspended by the magnetic waves acting on his steel robe. For twenty minutes he lay comfortably there, reading the new book that had just arrived by radio—it was the year 1966. As the automatic page-turner kept pace with his reading, he absently stroked Jim, his ferocious bull dog pup, also with his steel jacket, as he gnawed a bone at the two-foot level.

Suddenly Jim disappeared and when his barks kept coming back, fainter and fainter, Jake began to look for him. He finally located him rising rapidly through the air.

"Shucks!" exclaimed Jake. "Where is that darn pup going?"

Then he took in the whole situation at once when he saw a man standing on a cloud, holding a powerful synocolus (an instrument invented in the year 1960). This powerful electrical instrument brought Jim into his hands quicker than words.

The man whom Jake now realized to be a thief, mounted an aerial bicycle with the barking Jim and pedaled rapidly away, his helium-inflated balloon tires scattering wisps of cloud as he fled. In an instant Jake rose to the top of the White's private mooring mast, where he had tied up his brand new trans-atmospheric row boat. With a glance at the hydrogen tanks to be sure they registered enough pressure, he flopped into the seat, slipped the double-action air oars, and departed into space for the thief and Jim.

For five minutes he rowed steadily; then a glance ahead, over his shoulder, showed him that he was running into a fleecy white cloud, and that, strangely, the thief had dismounted and was waiting to defend himself. As he drew near, he saw the reason. The moment the nose of the boat bumped into the cloud, the thief discharged an armoniaic verilopecis which caused the cloud to condense into water.

"What'll I do now?" exclaimed Jake. "This will sink the ship as my armoniaic stabilizer is out o' commission."

Sure enough, a rainstorm, worse than any Jake had ever seen, descended on him, and try as he might he could not prevent the boat

The HICKORY LOG

sinking under its ever-increasing load of water. The thief mounted his bicycle again and departed cheerfully on his journey.

"Good-bye, son," he exclaimed gleefully over his shoulder.

Quicker than words or thought Jake decided on a plan of action. He pulled the string of his balloon pants, which caused him to rise out of the doomed boat and soared safely into the clear air above the cloud. He sighted the trail of the bicycle and started his work.

"I'll get even with him," he muttered as he took his radio from his pocket. "Hello! South American Gas Company, send me a vacuum a mile in extent! Be quick about it and I will order the bank to pay you by radio."

The vacuum arrived at once via radio. (This was quick service but even then some complained about its being slow.) He turned the tank toward the bicycle as he pulled the automatic synroponic discharger at its victim. The thief stopped pedaling as he could make no progress in a vacuum, but remained at a standstill.

As Jake was taking the vacuum back into the tank, he radiophoned the police station to come after the thief. His summons was answered immediately. The police came riding up in their super-special helium air dirigible, turned their magnetic arrester on the thief, and "swish" they were gone to the police air prison, located five miles above the earth in order that the occupants would have no chance to escape.

Jake recovered Jim, placed him under his arms, and dropped to his boat which had not yet gotten to the ground because the action had taken place so quickly. After emptying the boat of water, he rowed back to his mooring mast, descended then to his book, and wished that something would happen to put some adventure into his life.

HISTORY OF JUNIOR CLASS

WE feel more like old-timers now, as this is our third year in High School. But, oh! those awful first days of our High School course. It was rather a sudden change coming from grammar school, where we were "High and Mighty Seniors," to the High School as "Blundering Little Freshies." Latin and Spanish were monsters waiting to be conquered, and Algebra was worse than a Chinese puzzle. Those first term tests! No wonder Freshmen are called green; all of us, one hundred and twenty-six strong, were scared green; but we did finally get used to it. "Quantity but not Quality," we were said to be, but we have changed that.

Seventy-three of us passed to the Sophomore class. As Freshmen we said that if we ever got to be Sophomores we would never laugh at the mistakes of the next Freshmen; but it felt so fine to see people making the same blunders we had made, that we could not keep from laughing at them.

Now we are Juniors and, as I said before, we feel like old-timers. There are seventy Juniors and with Miss Aiken as class adviser and Virginia Clark as president, we hope to accomplish great things this year and pass successfully to our Senior year.

SOPHOMORE CLASS

HISTORY OF SOPHOMORE CLASS

LAST year, we, as Freshmen, felt quite honored to enter a new High School building—the first year of our high school career. Life took on a new aspect. We determined to be the best Freshman class in the history of the school. Let's hope we carried out that determination. As "Freshies" we tried to do everything that was required of us; some succeeded; some failed. We were always called "babies" by the Seniors; but nevertheless, we did not care because we were doing our best. We remember that once upon a time they were Freshmen. Those days will never be forgotten.

We are Sophomores now, ready to accomplish great things. Sophomores are usually termed "wise fools." We will try to be wise, but we are not so sure about the foolish part. There were one hundred and seventy-two Freshmen enrolled last year, while this year there are only eighty-five Sophomores.

As Sophomores we feel that we are climbing to higher things. More is required of us; therefore, we will try to live up to our motto: "A winner never quits and a quitter never wins." We are hoping that the latter half of our High School career will be even more successful than the first.

FRESHMAN CLASS HISTORY

THE Class of '30 has at last passed through one year of its high school life—and such a life as it has been. How little and green we felt on our first day in high school! We were “welcomed” as Freshmen are always “welcomed” by the upper-classmen. But after we had had time to recover, we showed them what mettle we had. We proved that we were just as full of “pep” and good school spirit as our “honored elders.”

With Miss Mary Frances Howle as our capable adviser we have made the year one of great success in every way.

ORGANIZATIONS

LITERARY SOCIETIES

CONTINUING in their paths of fame, the literary societies started this year auspiciously. For the benefit of those who do not know exactly what a literary society is, the following explanation might be in order. It is an organization intended to instill into our bonelike heads a taste for literary things, a sense of value; a knowledge of, and experience in public speaking. It is also intended to still our shaking knees and quell the tremor in our voices as we rise to greet an audience. Enlightenment on many subjects is a minor aim.

These instruments of learning are great inspirations, oases in our weekly grind.

Whatever their faults, whatever their peculiarities, they form an indispensable institution, knit closely into the life of the school.

For several years there has been a Hi-Y Club in this school. It has had its ups and downs, but has existed until the present time.

This year the Hi-Y Club started off with a bang! Soon after organizing there were found to be forty-three members. More than three times as many as had formerly belonged. Without delay the club started its upward path to fame. Several parties were given, an impressive initiation ceremony completed, and a delegation sent to Winston-Salem.

The club enjoys its fun, it is true, but it also has a program of service. It stands for clean speech, clean sports, clean habits, and clean living.

The Commercial Club was organized in 1925 under the direction of Miss Thurman. It is composed of sixty-seven members from the Type-writing, Shorthand, and Bookkeeping departments. This club strives to make business men and women of its members. It is also a club which is worthy of any student's ambition.

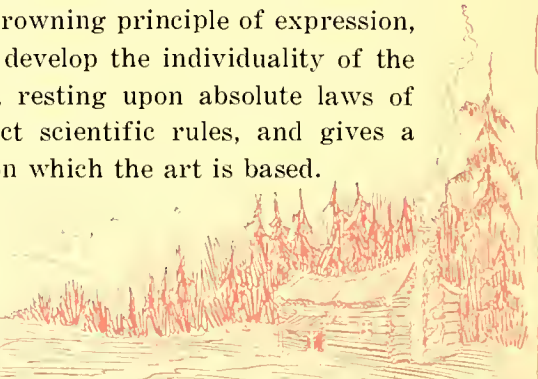

DRAMATIC CLUB

MRS. E. B. MENZIES, *Director*

"All time and money spent on body and voice brings a larger rate of interest than any other expenditure."—*Gladstone*.

The study of High School Dramatics gives richness, volume, and flexibility to the tones; ease and grace to the position and movement, freedom of action; teaches how to breathe correctly, articulate distinctly, read appropriately, speak impressively. It strengthens the memory and cultivates the moral nature. This course in Dramatics is arranged to meet the wants of readers and speakers who desire improvement and culture.

Naturalness is the fundamental and crowning principle of expression, and the training is such as to retain and develop the individuality of the student. Dramatics is taught as an art, resting upon absolute laws of nature, explained and illustrated by exact scientific rules, and gives a practical training in all the principles upon which the art is based.

The Gossip Club has its sessions each day at noon. Various topics are discussed, argued, and the results broadcasted. The school is run by its decisions (?). It is a new institution, and relies upon the front steps as its meeting place. Its many regular and honorary members are noted for their caustic wit and no couple dares walk past the steps because of the skirmish which follows. In battle array there is no more formidable looking bunch because the prettiest, handsomest, and wittiest of the school constitute this exclusive Gossip Club. To join, one must be equipped with a supply of good jokes, entertain the ladies, and watch and comment on the passing swains.

ON the first of September, nineteen hundred and twenty-six, a tiny bud was seen on the side of the HICKORY LOG. Mr. Ormond was the first to notice it, and with the help of some of the students of his group took care of it until on the tenth of September the first leaf appeared. Every week since then a new leaf has appeared, and it will not be long until it will be a full-grown "Twig."

Each leaf that has grown has done its part in boosting the activities and work of the High School, in giving rise to school spirit, and in creating a common interest among the students.

SOCIAL EVENTS

JUNIOR-SENIOR BANQUET

ON the evening of May 3, 1926, the cafeteria became an ideal setting for May Day festivals. A post in the center of the cafeteria was converted into a May pole with many colored crepe-paper ribbons reaching to every part of the room. The motif was further carried out by the miniature May poles on each table, the streamers of which extended to the hands of attractively dressed clothespin dolls, which were used as favors. Here the annual Junior-Senior banquet was held. The hand-painted place cards and rose mint baskets were also in keeping with the other beautiful decorations.

Mr. Patton, of Morganton, a well-known and much-liked humorist, delighted the crowd for some time with his jokes and witty sayings.

The musical features of the program consisted of several beautiful solos by Miss Frances Newton, accompanied by Mrs. Walter Schaff, and selections by the Male Quartet which sang at Greensboro last year in the High School Contest.

Throughout the banquet various toasts were made to Mr. Patton, Mr. Carver, Miss McComb, Senior Class Adviser; Miss Aiken, Junior Class Adviser; the faculty, the students, the school, and several phases of school activities.

The entire program was enjoyed by each one present, and was acclaimed one of the most highly successful Junior-Senior banquets ever given.

HI-Y PARTY

On October 15, 1926, following an exciting game, the Hi-Y Club entertained the Lenoir and local football teams at a party in the cafeteria.

The visiting boys were lined up and introduced to the girls. Then an opportunity was given the flappers to snatch the sheiks.

During the evening two little colored boys amused the guests with the Charleston. They were encored repeatedly.

The program was cut short owing to the fact that Hal Whitener, who was to have had a part, was injured in the game that afternoon.

Delicious cake and punch were served during the evening.

THE SOPHOMORE HALLOWE'EN PARTY

Pumpkins, corn stalks, and black cats, too! Ghosts, witches, and goblins galore!

'Twas Hallowe'en and the Sophomores had assembled in the cafeteria for a frolic. As their special guests they had the members of the football team.

Much excitement and interest was created by a fortune teller. Her black dress and hat, with her broom stick and black cat, emphasized the fact that she was a real witch, and her prophecies were bound to come true!

After many games, appropriate for the occasion, had been played, refreshments were served. Then, the spirits, having ended their visit to the land of the supernatural, returned to the world of humans!

HI-Y PARTY

One of the most delightful parties of the season was given at the home of Helen Flowers, on February 18, by the Hi-Y Club. In spite of the bad weather a large crowd attended.

Entertainment was furnished in the form of two plays and a dialogue, with Mary Everett, Champ Martin, Harry Boyd, and Lansing Hatfield taking part. During one of the plays, which was a comic tragedy, music was furnished by Bill Abernethy, who was chief musician of the affair.

The guests participated in a treasure hunt. While on this "wild goose chase" they visited the Lenoir-Rhyne Athletic Field, Carolina Swimming Pool, the Country Club, the entrance to the High School, the Catawba River Bridge, the Teacherage, the High School Athletic Field, and Oakwood Cemetery. Bill Abernethy and Lansing Hatfield were both winning contestants, but the tossing of a coin favored Bill.

However, he was not the only lucky one, since delicious refreshments were soon served everybody after the return from the hunt. For the remainder of the evening, general conversation and fun prevailed, bringing to a close, much too soon, a very enjoyable party.

ATHLETICS

Athletics in the Claremont High School has been considered the best this year that the school has ever had. The boys that took part in athletics were *clean sports*, and hard fighting "LITTLE WONDERS."

FOOTBALL

The football team at the end of the football season, was undefeated. Hickory played ten games, won seven, and tied three. The second team played one game here with the North Carolina School for the Deaf from Morganton and won. The football team this year achieved a record of which no former Hickory team can boast.

BASKETBALL

Basketball started off with the prospects of developing a great basketball team. The boys won the first nine games. Though in the middle of the season they went on a slump, they managed to keep above the half way mark.

The girls made a remarkable record in basketball this year. The team was largely composed of girls new in the sport. Out of 17 games they won 11, lost 5, and tied one.

GYMNASIUM

The courses in the gymnasium are given for mental development as well as for physical training. These courses are a regular part of the High School curriculum.

BASEBALL

With seven letter men back Coach Walling hopes to put out a winning baseball team.

SPARE THE ICE AND SPOIL THE FOOD

According to Uncle Sam, many families spend one-third of their income for food.

Now, as just a matter of plain housekeeping mathematics: Is it worth while to invest a few cents in ice that will protect the value of all that food? The answer being so unopen to argument, we wonder how any family can practice the "False Economy" of food risked to spoilage.

Food left in a room—on a window shelf—left over night in any thing but a well-iced refrigerator can very easily spoil. That's why ice is needed every day in the year—and we're here to serve you.

THE HICKORY HOG

A Burlesque Log

1927

Published by IMA HOGG, URA PIGG, ROST EDD HAM

Copyright

We've got a notion to copyright this book, so we hope no "copy writes" our idea before we do. If they do they may have a "rite" before we finish with them.

Dedication

To all our relatives, friends, and classmates—in fact, to all the Hickory Nuts—the gathering of which made possible this publication, we, the staff, dedicate this HICKORY HOG.

Foreword

We know this is not as good as it could be, but we hope you will forgive us. We, the staff, realize that we spent too much time at the Grand Theater. We know this book is terrible. We thank you.

ATHLETICS

Footbawl

Immediately after the tightest game of the season, with Oyama, the score being 113-112 in favor of C. H. S., the student body staged a jubilee. It lasted all night and everybody had a fine time.

This season our pigskin heroes did not get to play in the mud much, but we hope for a better and muddier season next year.

The band secured by Champ Martin added much pep to all games.

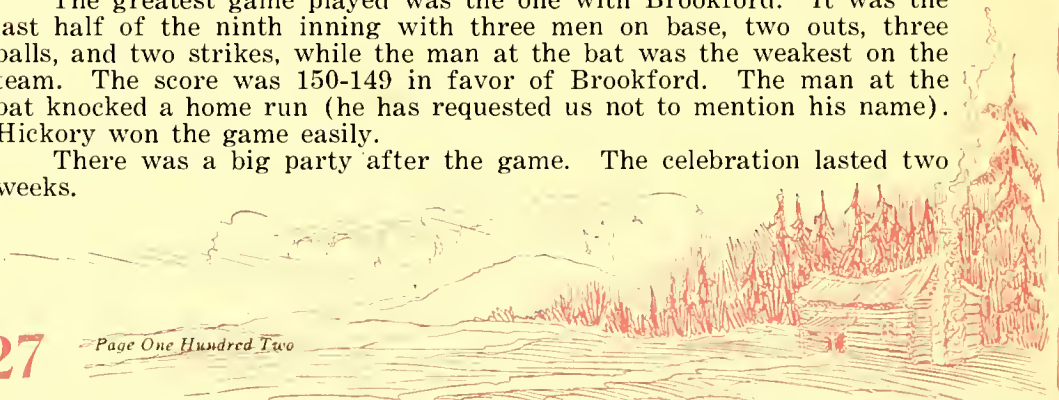

Basketbawl

This year the team was especially strong owing to the experience in their days of infancy when they bawled in a basket. Now they are so big that they just "ball" the basket.

Basebawl

The greatest game played was the one with Brookford. It was the last half of the ninth inning with three men on base, two outs, three balls, and two strikes, while the man at the bat was the weakest on the team. The score was 150-149 in favor of Brookford. The man at the bat knocked a home run (he has requested us not to mention his name). Hickory won the game easily.

There was a big party after the game. The celebration lasted two weeks.
